THE PATIENT ENJOYS A TRULY SIMPLIFIED EXPERIENCE

# HOW TO GET STARTED

## Ideal Candidates

- Patients on numerous prescriptions
- Patients enrolled under Managed Long Term Care
- Patients who may be forgetful and require special care & attention
- Patients who require full service, (i.e. - Medications, DME, Home Delivery)

## Enrollment Process

### STEP 1

Have the provider send prescriptions to the pharmacy. (Via EMR Systems). Call the Pharmacy and speak with one of our staff members for any special requests/instructions.

### STEP 2

Our Pharmacists will do a complete medication reconciliation and strategically coordinate all prescriptions for the most ideal times of day, and separate medications to decrease drug to drug interactions.

**We take it from there! Enjoy the peace of mind that your patients are in good care.**

# PHYSICIAN'S REFERENCE GUIDE

## PRESCRIPTIONS MADE EASIER

### ● ○ ○ ACCOUNTABILITY

Our records match the physician's records. All prescriptions and refills are meticulously kept up to date.

### ● ● ○ LIABILITY

Prescribers decrease their risk of duplicate therapy and poor patient medication adherence with the use of our intuitive and modular platform.

### ● ● ● AUTOMATION

De-clutter and never forget. Preset schedules help to ensure the patients never miss a dose.

**\*Every blister pack receives this handy "Physician's Reference Guide" for up to date access to their current medication regimen.\***  
- Patients are encouraged to bring these along to their follow-up doctor visits.
